Olympic complies with the standards of the National Wooden Pallet and Container Association (NWPCA) and meets all export requirements set forth by the International Plant Protection Convention (IPPC).

## New Wooden Pallets

New wooden pallets are made of all species and grades of lumber from hardwood to various softwood species. On a performance-to-cost basis, wood's characteristics are virtually unparalleled.

### Standard Pallets:

- Runner Type Pallet (2-Way and 4-Way)
- Block Type Pallet
- Single-Faced Pallet
- Double-Faced Pallet
- GMA (Grocery Manufacturer's Association) Pallet

## Recycled Pallets

A quality recycled pallet functions as a new pallet but is more cost effective. It is a pallet that has been used, discarded, salvaged, repaired, or rebuilt in order to pass through another cycle, or cycles, of use.

### Standard Recycled Pallets:

- Recycled GMA Pallets
- Recycled Block Pallets
- Combo Pallets
- Remanufactured Pallets
- Euro Pallets
- Drum Pallets

## Specialty Pallets

Olympic offers customized specialty pallets that can be made to suit your specific applications. Our network of specialty mills have been set up for both hardwood and softwood products.

## Moving Forward

The 21st century will continue to be a time of innovation and increasing specialization in the materials handling industry. While wood products remain the standard, additional materials including plastics and steel will play a greater role. Olympic will continue to provide the best traditional methods as well as cutting-edge advancements to offer superior value to our customers.

## Our Goal

Our goal is to make sure our customers get the best products... on time...at a value that meets requirements and exceeds all expectations.
